

FREE 1/2 DAY PERTH SEMINAR

FRIDAY 22 NOVEMBER – 8:45 AM – 12:00 PM

Presented by Stefan Furness - SPM Instrument & Geoff Soper - apt Group

HIGH-PERFORMANCE ON-LINE SYSTEMS & WIRELESS SENSORS

- ✔ **Benefits** of deploying State-of-the-art CM systems for critical & challenging applications – an early indication of damage, minimises the risk of sudden functional failure
- ✔ **Optimizing** the settings for bearing and gear fault detection, covering the whole RPM range – from ultra-low to high speed applications
- ✔ **New and innovative** ways of using high quality vibration data, to optimise the production process, using a Rest API interface for Industry 4.0 integration

Holiday Inn City Centre Perth
778 - 788 Hay Street Perth WA 6000

RSVP by 20 Nov. 19
to info@aptgroup.com.au

Complimentary refreshments included!
